

Press Release

ADVANTYS releases version 5 of the WorkflowGen BPM / Workflow software

Montreal, Canada - (March 28, 2007): ADVANTYS is a leading ISV offering the WorkflowGen BPM / Workflow software. WorkflowGen is used worldwide by organizations of all sizes to quickly and easily design, deploy, execute, monitor and analyze their automated business processes.

“WorkflowGen has been totally rewritten in .Net 2.0 for improved performance and security as well as simplified administration. The look and feel and ergonomics have been entirely redesigned for a richer more intuitive user experience. Service Oriented Architecture (SOA) is easier with the integration of existing Web Services without programming.” says Alain Bezancon President of ADVANTYS. “More than ever the version 5 enables our clients to achieve quick wins and still have a solution scalable enough for an integrated enterprise wide usage.”

The WorkflowGen BPM / Workflow software is fully web based and enables the end users to complete and monitor processes online. AJAX compliant .Net Web Forms and PDF forms can be used as electronic forms. The design and implementation of the workflows are realized via a web browser with a graphical mapping interface without programming.

The WorkflowGen BPM / Workflow software is based around a practical technical solution integrating tried and tested development standards. WorkflowGen’s scalable architecture, and its ability to incorporate additional developments, provide for easy integration with existing databases and applications including Microsoft Sharepoint and SAP.

WorkflowGen is available in 10 languages and distributed in 30 countries.

About ADVANTYS

The WorkflowGen BPM / Workflow software is edited by ADVANTYS. Since 1995 ADVANTYS specializes in the implementation of high added-value solutions in the field of B2B web solutions. Over the last 10 years ADVANTYS has developed a suite of robust and innovative solutions used daily by hundreds of organizations worldwide. This leadership brought Gartner to list ADVANTYS in the Smart Enterprise Suite Magic Quadrant.
